

Dear State Rep. \_\_\_\_\_ and State Sen. \_\_\_\_\_

**We, the undersigned, urge you to support the Bottle Bill Update (H3515/S1480)**

The bottle bill is the state’s most successful recycling and litter prevention program. Since 1990, more than 30 *billion* containers have been redeemed under the bill, contributing to a cleaner, healthier environment. But as consumers’ tastes change, the bottle bill must be updated to keep up with our times.

The proposed update would increase recycling rates by adding newer beverages such as bottled water, sports drinks, iced teas, and other beverages to it. This bill would:

- Help prevent litter and make our communities safer and cleaner.
- Protect our environment and increase recycling.
- Reduce waste disposal costs for municipalities and taxpayers.
